

EH-TW6600

DATASHEET

A Full HD 2D & 3D projector that delivers lots for your money, with 3LCD technology for exceptional, high-contrast images.

Projecting in Full HD quality, in both 2D & 3D, this compact 3LCD projector from Epson is all about the big screen home cinema experience for both films and games. Wide vertical and horizontal lens shift makes it easy to position in a living room, while a bright image, combined with a high contrast ratio of 70,000:1 and a total of seven colour modes, results in spectacular images.

Sharp and bright images

This Full HD projector uses 3LCD technology and 2,500 lumens brightness, with equally high White and Colour Light Output, to ensure vivid colours with no rainbow effect, while the 70,000:1 contrast ratio means deep blacks and highly detailed images in dark scenes.

Easy positioning

With wide vertical and horizontal lens shift, it's easy to position the EH-TW6600 off-centre to a screen, creating a precisely-sized image, with no distortion or stretching. Combined with a 1.6x zoom lens and a compact design, it makes it incredibly simple to set up in any environment. Integrated 20W stereo speakers free you to connect to any external system, while all audio can easily be sent to a sound system using dedicated outputs.

Advanced imaging technology

Able to convert 2D video to 3D for maximum versatility, the EH-TW6600 includes seven colour modes – including two specially for 3D – and a pair of RF 3D glasses¹. By sensing the ambient light levels, the auto colour optimiser can automatically identify the best setting, and Epson's enhanced Super Resolution ensures both 2D and 3D video looks as sharp and crisp as possible.
